25X1 1. [REDACTED] Dr. Henry Myers, staff of Chairman Morris K. Udall's
25X1 House Interior and Insular Affairs Committee, called and informed
[REDACTED] Acting Legislative Counsel, that a classified page had
inadvertently been published by the Committee included in certain material
the Committee received from the Nuclear Regulatory Commission (NRC).
Can you please determine if this page contains CIA information provided
to the NRC?

25X1 2. [REDACTED] Dr. Myers also requested that we review the facts
attributed to Carl Duckett, former DDS&T, in the NRC report and
determine if his statement is supported by the Agency's records.
We recognize that this may raise an issue as to Mr. Duckett's credibility,
25X1 however, [REDACTED] did point out to Dr. Myers that Mr. Duckett is
a very honest and credible person and he was commenting on circum-
stances that occurred several years ago and his recollection may not
have been entirely accurate.
